- How to find an NHS Dentist ✓
- Emergency Treatment ✓
- Private Treatment ✓
- Community Dental Service ✓

Hull Dentists

Healthwatch Hull has received a lot of requests and questions in regard to NHS dentists. People have told they find it hard to find a dentist who is taking on new patients.

How to find an NHS Dentist:

Our advice is to continue to contact local dentists within Hull and surrounding areas, and request to be placed on their waiting lists.

You can find a list of dentists, and their contact details here: <https://www.nhs.uk/service-search/find-a-dentist> as well as on our Healthwatch Hull website <https://healthwatchkingstonuponhull.co.uk/dentist/>.

You do not have to register with a local dentist. You can register anywhere if you are willing to travel.

If you already have a Dentist:

Ensure you keep your place by going to and keeping your appointments.

NHS Dentists

Emergency Treatment

If you need emergency treatment, contact the dental practice you are registered with.

If you are NOT registered with a dental practice, contact 111.

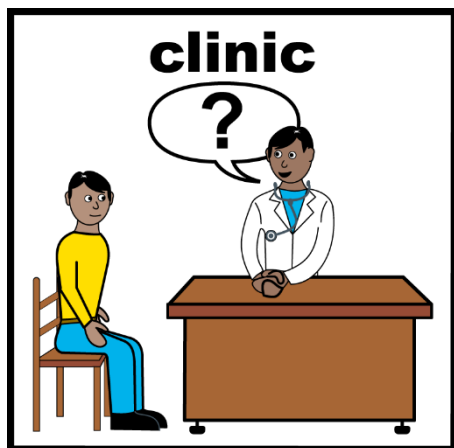

If you believe you are in a life-threatening situation you should call 999 immediately.

Private Treatment:

Private treatment could be suitable, depending on your personal circumstances.

Some practices offer their own private schemes. You could ask about this by calling the practice or looking online.

Community Treatment;

City Health Dental provides emergency care appointments, check-ups, and routine dental care, as well as many more services. You can find out more on:

<https://www.cityhealthdental.co.uk/clinics> or

<https://www.chcpcic.org.uk/chcp-services/dental>

You can find all of the local Dentists on:

<https://healthwatchkingstonuponhull.co.uk/dentist/>
